As a supporting organization of The Dayton Foundation, we have asked for a little more information this year:

The Dayton Foundation is committed to decreasing disparities and advancing equity in the communities we serve.

Progress towards achieving equity in Greater Dayton cannot be fully realized without understanding how we are making a positive impact for historically marginalized or disinvested populations through our grants. If you have not already, we encourage all organizations to start having the conversations with your Board and staff on diversity, equity and inclusion and how these values can become an integral part of your organization and your work in the community. The Dayton Foundation intends to require organizations to provide information about equity practices starting in fiscal year 2023.

Please describe your organization's internal/external diversity, equity and inclusion efforts in place and plans under discussion/future expectations. Please provide concrete strategies to show what this work looks like within your organization and through your programs (examples of strategies added/will be added to your organization's strategic plan). Please share how The Dayton Foundation can help you in your efforts to advance equity
